

Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	12
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

Main Tasks Assigned:

Build the initial model architecture
Implement feature extraction
Begin initial model training using the preprocessed data

Work Completed:

We kind of finished the dataset we have, but it is subjected to change. The data got preprocessed and the training can start now.

Challenges Encountered:

Knowing what categories to put on the dataset.

Solutions Implemented:

We decided to finish the architecture first and then edit the dataset based on what will happen.

Tasks for Next Week:

Will try to adjust everything if needed, dataset specifically.

Instructor's Feedback:
